PROFILE SUMMARY

Dedicated and ambitious Computer Science student with a strong foundation in programming, software development, and problem-solving. Passionate about leveraging technology to create innovative and efficient solutions. Seeking an opportunity to apply skills in a dynamic and collaborative environment, willing to learn from experienced professionals and contribute meaningfully to impactful projects.

EDUCATION

CGC University <i>Bachelor of Technology in Computer Science</i> – CGPA: 8.02	Mohali, India 2022 – 2026
St Mary's Sr Sec School <i>Higher Secondary: Physics, Chemistry, Mathematics</i> – Percentage: 79.6%	Haridwar, UK 2020 – 2022
St Mary's Sr Sec School <i>Matriculation</i> – Percentage: 88.4%	Haridwar, UK 2020

INTERNSHIP / TRAINING

Java Developer <i>Bharat Heavy Electricals Limited</i> – Worked as a Java Developer on enterprise-level applications. – Created Employee Payroll System with comprehensive functionality. – Enabled accurate payroll calculations by factoring in leave deductions and workdays, ensuring transparency.	June 2024 – July 2024 Haridwar
AI/ML Intern <i>Edunet Foundation</i> – Built a conversational Chatbot using IBM Watson AI. – Leveraged natural language processing to create intelligent conversational experiences.	June 2024 – July 2024 Online

PROJECTS

Smart Email Assistant <i>Java, Spring Boot, Gemini API, Postman</i> – Built a Smart Email Generator using Spring Boot and Gemini API for AI-powered content creation – Optimized performance of API calls – Integrated external APIs (Gemini API) to enable AI-powered email generation – Designed and implemented RESTful APIs using HTTP methods (GET, POST, PUT, DELETE).	2025
PacMan Game <i>Java, Java Swing, OOP</i> – Developed a PacMan game in Java using Swing, including player movement and collision handling. – Built the game using OOP concepts like classes, objects, and game loops. – Implemented ghost AI with pathfinding algorithms and multiple difficulty levels to create challenging gameplay experiences.	2025
AI Campus Security Face Recognition System <i>Python, FaceNet, OpenCV</i> – Designed a CNN-based deep learning face recognition system. – Boosted security using feature extraction and classification techniques.	2024

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, HTML/CSS, JavaScript

Core Concepts: Data Structures, Object-Oriented Programming (OOP), Backend Development, Design Patterns, Multithreading, Test-Driven Development (TDD)

APIs and Web Services: RESTful APIs, API Integration, HTTP Methods

Libraries/Frameworks: Swing (Java), Spring Boot, Bootstrap

Tools/Platforms: VS Code, PyCharm, Jupyter Notebook, Git, GitHub, Postman

Databases: MySQL, SQL (CRUD Operations)

Soft Skills: Quick Learner, Self-Motivating, Active Listener, Problem Solving, Time Management, Communication, Team Collaboration

CERTIFICATIONS

5-Star Coder (Java) – HackerRank

MySQL – Kaggle

Hack-N-Win Participation Certificate – CGC Jhanjeri

Website Development – CGC Jhanjeri

CODING PROFILES

5 Star Java on HackerRank

Solved 90+ problems on LeetCode (Data Structures & Algorithms)
